

10th Annual Anita Sabedra Team Hope Walk
Saturday, September 17, 2022
9:00 AM
Middlebrook Greenbelt Park

Dear Friends of HD Families,

The Huntington's Disease Society of America (HDSA) Greater Houston Area Affiliate is excited to announce the 10th Annual Anita Sabedra Team Hope Walk. The event will be held on Saturday, September 17th, at Middlebrook Greenbelt Park. Team Hope Walk events represent the largest local opportunity for members of the HD community to come together with friends, family, neighbors and the community at large to raise awareness and funds to support HDSA. We sincerely hope that you will join us for this combination live and virtual event.

Huntington's disease (HD) is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities during their prime working years and has no cure. Every child of a parent with HD has a 50/50 chance of carrying the faulty gene that causes HD. Today, there are 41,000 symptomatic Americans and more than 200,000 at-risk of inheriting the disease. Many describe the symptoms of HD as having ALS, Parkinson's and Alzheimer's – **simultaneously**.

Proceeds from Team Hope support the mission and programs of HDSA, the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's disease. From community services and education to advocacy and research, HDSA is the world's leader in providing *help for today, hope for tomorrow* for people with Huntington's disease and their families.

A local Team Hope Walk sponsorship at any level is an excellent opportunity for you to support a great cause and to take advantage of a wonderful marketing opportunity. Team Hope Walks have raised more than \$20 million and involved tens of thousands of participants from local communities across America. As a local sponsor, you will be increasing your brand recognition and visibility, demonstrating your commitment to the local community your employees and customers live and work in.

This cause is extremely important to so many members of our community. Your sponsorship of the Team Hope Walk program will be greatly appreciated and will make a huge difference to the thousands of families who are living with HD. We could use all types of support including sponsorship, in-kind goods, and corporate teams to participate in the walk and volunteers. To learn more about Huntington's disease and HDSA, please visit www.hdsa.org, and our Team Hope webpage at www.hdsa.org/teamhope.

Enclosed you will find a packet that details the sponsorship opportunities. Please contact me directly if you have questions or need additional information. Thank you for your consideration, and we hope to see you at the Anita Sabedra Team Hope Walk on September 17! In the battle against Huntington's disease no one fights alone. At HDSA, family is everything.

Huntington's disease (HD) is a genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years, and is ultimately fatal.

HD manifests as a triad of motor, cognitive and psychiatric symptoms, which progressively get worse over time. The symptoms of HD are often described as having ALS, Parkinson's and Alzheimer's diseases – simultaneously.

Every child of a parent with HD has a 50/50 chance of inheriting the faulty gene that causes the disease. Today, there are approximately 41,000 symptomatic Americans and 200,000 people in the United States at-risk of inheriting HD. In less than 10% of cases, juvenile Huntington's disease (JHD) affects children & adolescents.

THERE IS NO CURE...YET.
